OVERALL CAREER READING

Strong

Medium confidence · the same reading as your Kundli's Career verdict

LEADING FIELDS

Finance · Administration

Finance, Administration share the best reading (strong) of the six assessed

EMPLOYMENT OR INDEPENDENT WORK

Leans to employment

From the 6th and 7th houses

MAIN STRENGTH

Saturn

Saturn as significator, 6th lord placement (Saturn), 6th lord dignity (Saturn), Saturn in the 6th and 7th lord dignity (Saturn)

MAIN CHALLENGE

Venus

10th lord placement (Venus) and 3rd lord placement (Venus)

CURRENT PERIOD

Rahu – Moon

Mahadasha to 27 Dec 2028; Antardasha to 9 Dec 2027; next Mars from 9 Dec 2027

LIMITS OF THIS READING

The D10 depends on an accurate birth time: its rising sign stays Capricorn for a birth up to 8 minutes earlier and 3 minutes later. Dates are calculated periods, not promised events; the report describes tendencies, not guarantees.

01

Executive Career Summary

This report opens with its conclusions, and the overall reading here is the one your Kundli shows for career. Beside overall career reading, the factors carrying most weight are Moon in the 10th and 1st house Sarvashtakavarga. A useful test is a short assignment with a clear deliverable, judged on what it actually produced. Watch how quickly feedback reaches you; slow feedback is where this indication tends to cost the most.

Among the six fields assessed, the leading group and the trailing group are separated by evidence that only one side draws on. Beside how the six fields compare, here What the D10 adds and Employment or independent work matter most. Small, reversible commitments let you see whether the reading matches your own experience. Keep notes on which duties leave you energised and which drain you, since that record outlasts any forecast.

The present periods set the tone for the next few years, and the coming change of sub-period moves the emphasis. Beside how the emphasis shifts, behind this sit Rahu Mahadasha and Moon Antardasha. Responsibility offered gradually tends to suit this pattern better than a sudden leap in scope. Colleagues who review work closely can turn this into an advantage rather than a pressure.

02

Professional Identity

Your professional make-up is described by how the rising sign, the house of career and their rulers bear on one another. Beside venus's birth-chart lordship, the deciding evidence is 1st house Sarvashtakavarga and 1st lord placement (Sun). Where a choice is close, the steadier option usually fits this evidence better. It helps to separate what the role demands daily from what it promises on paper.

The question of a salaried role against independent work is settled by the houses of service and of trade. Beside employment or independent work, it rests chiefly on 6th lord dignity (Saturn) and Venus in the 6th. Measured targets, agreed in advance, make the strengths described here visible to others. The weaker side of this reading is best handled by preparation, not avoidance.

EMPLOYMENT OR INDEPENDENT WORK: THE EVIDENCE

Your 6th house of service and employment reads as supportive (for it, 6th lord dignity (Saturn) (moderate), Venus in the 6th (moderate) and Jupiter's aspect on the 6th (weak)). Your 7th house of trade and partnership reads as strained (for it, 7th lord dignity (Saturn) (moderate); against it, 7th lord placement (Saturn) (moderate) and 7th house Sarvashtakavarga (moderate)). So the chart favours employment within an organisation over independent business. Your 10th lord, Venus, sits in the 6th house, tying career to service.

03

Strengths and Challenges

Strengths

Saturn recurs as a strength: Saturn as significator, 6th lord placement (Saturn), 6th lord dignity (Saturn), Saturn in the 6th and 7th lord dignity (Saturn) all point the same way, and it is the D10 Lagna lord and a natural significator of career.

Moon in the 10th — strong
Moon occupies the 10th house (Taurus).

1st house Sarvashtakavarga — moderate
The 1st house (Leo) has 32 bindus — above average.

6th lord placement (Saturn) — moderate
The 6th house (Capricorn) is ruled by Saturn, which sits in the 6th house itself.

6th lord dignity (Saturn) — moderate
Saturn, lord of the 6th house, is own sign in Capricorn.

Venus in the 6th — moderate
Venus occupies the 6th house (Capricorn).

Challenges

Venus recurs as a challenge: 10th lord placement (Venus) and 3rd lord placement (Venus) both point the same way, and it is your 10th lord and the D10's 10th lord.

10th lord placement (Venus) — moderate
Venus, lord of the 10th house (Taurus), sits in the 6th house.

7th lord placement (Saturn) — moderate
Saturn, lord of the 7th house (Aquarius), sits in the 6th house.

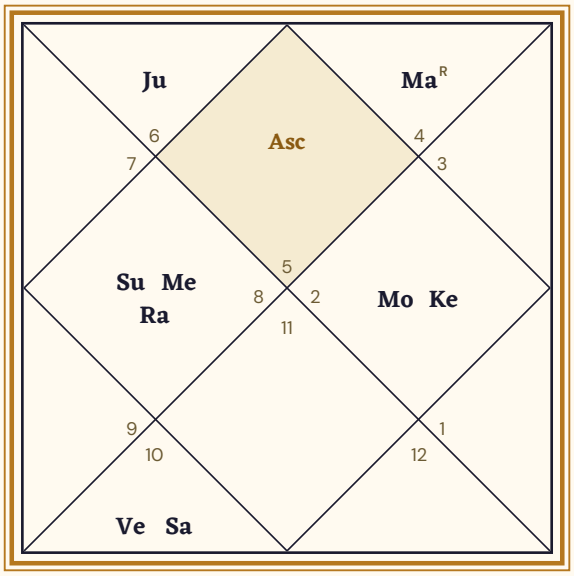

7th house Sarvashtakavarga — moderate
The 7th house (Aquarius) has 22 bindus — below average.

The professional strengths come first, from the firmest to the lightest. Beside recurring strength, look first at Moon in the 10th and 1st house Sarvashtakavarga. Expect the benefit to build over years; short trials show direction, not the final result. A mentor with experience in this area can shorten the learning considerably.

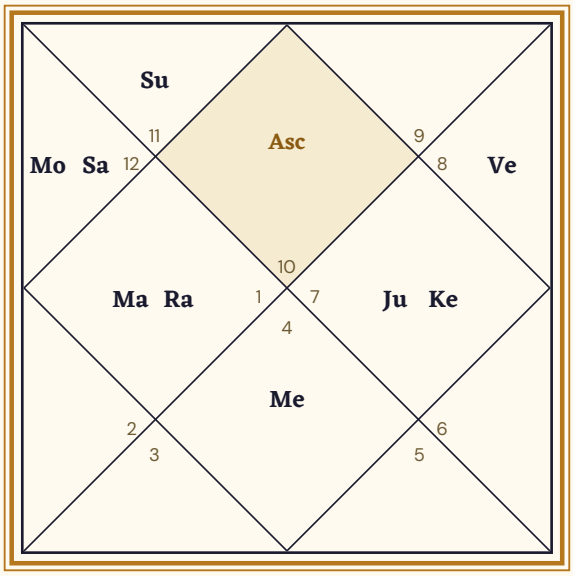

The challenges recur rather than appearing once, which is why they deserve planning. Beside recurring challenge, the factors carrying most weight are 10th lord placement (Venus) and 7th lord placement (Saturn). Treat early friction as information about fit rather than as a verdict on ability. Organisations with documented processes tend to reward the habits this suggests.

D1 and D10 Analysis

Rasi · D1 (birth chart)

Dasamsa · D10 (profession)

North Indian charts; house 1 is the shaded top diamond; numbers are signs (1 = Aries). R marks a retrograde planet.

PLANET	ROLE	BIRTH CHART (D1)	DASAMSA (D10)	D10 BEARING
Venus	your 10th lord, the D10's 10th lord	Capricorn, 6th; friendly	Scorpio, 11th; neutral	Unresolved
Sun	your Lagna lord, a natural significator of career	Scorpio, 4th; friendly	Aquarius, 2nd; enemy's	Unresolved
Saturn	the D10 Lagna lord, a natural significator of career	Capricorn, 6th; own sign	Pisces, 3rd; neutral	Unresolved

OVERALL: THE D10 DOES NOT SETTLE THE BIRTH-CHART READING

Against the overall career reading (strong), the D10 shows no counted strength or weakness for the career planets, so it leaves that reading as it is.

This planet is read in both of its charts in turn. Beside venus in d1 and d10, here Venus as significator matter most. Pairing this strength with a partner who covers its gaps is often more practical than fixing every gap alone. Your own results over the next year are the best check on how much weight to give this.

This planet is read in both of its charts in turn. Beside sun in d1 and d10, behind this sit Sun as significator. Choosing where to specialise matters more here than how fast you move. Visible, finished work tends to count for more under this pattern than promises of future output.

This planet is read in both of its charts in turn. Beside saturn in d1 and d10, the deciding evidence is Saturn as significator. A written plan with review dates keeps this from drifting into habit. Seasonal or project-based work is a low-cost way to sample this before committing.

The Dasamsa is the divisional chart read for profession; here it is set against the birth chart as a whole. Beside what the d10 adds, it rests chiefly on Venus in D1 and D10 and Sun in D1 and D10. Credit may arrive later than effort under this pattern, so budget patience into plans. Clear ownership of a defined area tends to bring out the better side of this reading.

05

Professional Field Comparison

Each field is judged on its own significators and houses by the same engine as your Kundli; fields are ranked by that reading. Readings are qualitative, never percentages.

#	FIELD	READING	FOR	AGAINST
1	**Finance and management**	Strong	2nd lord placement (Mercury); 2nd house Sarvashtakavarga; 11th lord placement (Mercury); Jupiter's D10 house; +2 more	Jupiter as significator
2	**Administration**	Strong	10th lord dignity (Venus); 6th lord dignity (Saturn); Saturn as significator; Sun as significator	10th lord placement (Venus)
3	**Business and entrepreneurship**	Mixed	7th lord dignity (Saturn); 3rd lord dignity (Venus); 11th lord placement (Mercury); Mercury's D10 house; +2 more	7th lord placement (Saturn); 7th house Sarvashtakavarga; 3rd lord placement (Venus)
4	**Communication and public-facing professions**	Mixed	3rd lord dignity (Venus); 7th lord dignity (Saturn); Mercury's D10 house; Moon as significator; +1 more	3rd lord placement (Venus); 7th lord placement (Saturn); 7th house Sarvashtakavarga
5	**Government and institutional roles**	Challenging	10th lord dignity (Venus); Sun as significator; Jupiter's D10 house	10th lord placement (Venus); 9th lord placement (Mars); Jupiter as significator
6	**Advisory and consulting roles**	Challenging	Jupiter's D10 house; Mercury's D10 house	9th lord placement (Mars); 5th lord dignity (Jupiter); 5th house Sarvashtakavarga; Jupiter as significator

What separates the fields

Finance and management and Administration share the same reading (strong). Only Finance and management draws on support from 2nd house Sarvashtakavarga and 2nd lord placement (Mercury) (+4 weaker); and strain from Jupiter as significator. Only Administration draws on support from 6th lord dignity (Saturn) and 10th lord dignity (Venus) (+3 weaker); and strain from 10th lord placement (Venus).

Administration (strong) ranks above Business and entrepreneurship (mixed). Only Administration draws on support from 6th lord dignity (Saturn) and 10th lord dignity (Venus) (+3 weaker); and strain from 10th lord placement (Venus). Only Business and entrepreneurship draws on support from 7th lord dignity (Saturn) and Mars's D10 dignity (+5 weaker); and strain from 7th lord placement (Saturn) and 7th house Sarvashtakavarga (+1 weaker).

Business and entrepreneurship and Communication and public-facing professions share the same reading (mixed). Only Business and entrepreneurship draws on support from Mars's D10 dignity and 11th lord placement (Mercury) (+1 weaker). Only Communication and public-facing professions draws on support from Moon as significator and Venus as significator.

Communication and public-facing professions (mixed) ranks above Government and institutional roles (challenging). Only Communication and public-facing professions draws on support from 7th lord dignity (Saturn) and 3rd lord dignity (Venus) (+4 weaker); and strain from 3rd lord placement (Venus) and 7th lord placement (Saturn) (+1 weaker). Only Government and institutional roles draws on support from 10th lord dignity (Venus) and 9th lord Dig Bala (Mars) (+2 weaker); and strain from 10th lord placement (Venus) and 9th lord placement (Mars) (+1 weaker).

Government and institutional roles and Advisory and consulting roles share the same reading (challenging). Only Government and institutional roles draws on support from 10th lord dignity (Venus) and Sun as significator; and strain from 10th lord placement (Venus). Only Advisory and consulting roles draws on support from 5th lord Dig Bala (Jupiter) and Mercury's D10 house; and strain from 5th house Sarvashtakavarga and 5th lord dignity (Jupiter).

Finance and management (strong reading)

Finance and management is judged on its own significators and houses. Beside finance and management, look first at 2nd house Sarvashtakavarga and 2nd lord placement (Mercury). When two options look equal, the one with clearer accountability is usually the better fit here. The pressure described here eases when expectations are explicit from the start.

Administration (strong reading)

Administration is judged on its own significators and houses. Beside administration, the factors carrying most weight are 10th lord placement (Venus) and 6th lord dignity (Saturn). Short written reviews after each project make the pattern easier to see over time. Negotiating scope before accepting a role protects against the strain noted here.

Business and entrepreneurship (mixed reading)

Business and entrepreneurship is judged on its own significators and houses. Beside business and entrepreneurship, here 7th lord placement (Saturn) and 7th lord dignity (Saturn) matter most. Steady skill-building in one domain compounds faster than scattered effort across several. Ask for responsibilities that can be measured within months, not only over years.

Communication and public-facing professions (mixed reading)

Communication and public-facing professions is judged on its own significators and houses. Beside communication and public-facing professions, behind this sit 3rd lord placement (Venus) and 7th lord placement (Saturn). Your network of past colleagues is a practical route into work of this kind. A trial period, formally agreed, suits the cautious side of this reading.

Government and institutional roles (challenging reading)

Government and institutional roles is judged on its own significators and houses. Beside government and institutional roles, the deciding evidence is 10th lord placement (Venus) and 9th lord placement (Mars). Technical depth tends to protect you where the evidence is weaker. Leadership of a small unit is a sensible first step before anything larger.

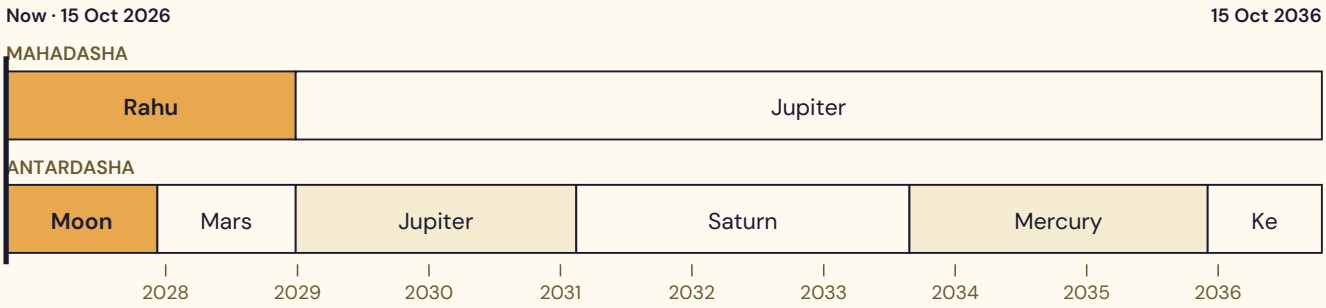

Advisory and consulting roles (challenging reading)

Advisory and consulting roles is judged on its own significators and houses. Beside advisory and consulting roles, it rests chiefly on 5th house Sarvashtakavarga and 9th lord placement (Mars). Budget time for formal training; this evidence favours depth gained slowly. Regular conversations with someone already doing the work will test the fit cheaply.

Drawing the six assessments together shows where the separations are real and where they are slight. Beside how the six fields compare, look first at Finance and management against Administration and Administration against Business and entrepreneurship. Look for employers whose promotion criteria are written down and applied consistently. Documenting decisions and their outcomes builds the reputation this reading points to.

06

Career Timing

RUNNING MAHADASHA

Rahu

27 Dec 2010 – 27 Dec 2028

tone supportive

Rahu sits in your 4th house. It has no direct link to your 10th house. Owning no sign, it works through Mars, the lord of the sign it occupies, and so also bears on government, business and advisory.

RUNNING ANTARDASHA

Moon in Rahu

9 Jun 2026 – 9 Dec 2027

tone supportive

The Moon rules your 12th house and sits in your 10th house. For career: Moon occupies the 10th house. Fields it bears on (as significator: communication; from the 10th: administration and government).

NEXT ANTARDASHA

Mars in Rahu

9 Dec 2027 – 27 Dec 2028

tone strained

Mars rules your 4th and 9th houses and sits in your 12th house. It has no direct link to your 10th house. Fields it bears on (as significator: business; as 9th lord: government and advisory).

On 9 December 2027 the sub-period passes from Moon (tone supportive) to Mars (tone strained). Fields the new sub-period brings forward: business and entrepreneurship and advisory and consulting roles. Fields it no longer emphasises: administration and communication and public-facing professions.

This period is read through the condition of its lord. Beside rahu mahadasha, the factors carrying most weight are Rahu's D10 house. Changes made between projects carry less risk than changes made in the middle of one. Choose roles whose daily rhythm matches yours; the evidence speaks to rhythm as much as to field.

This period is read through the condition of its lord. Beside moon antardasha, here Moon's capacity as a period lord and Moon's period links matter most. A second opinion from a trusted colleague is worth seeking before any large move. Concentrated effort over a defined season suits this better than constant switching.

This period is read through the condition of its lord. Beside mars antardasha, behind this sit Mars's D10 dignity and Mars's D10 house. Where recognition is slow, a portfolio of finished work speaks on your behalf. Keep one dependable commitment steady while experimenting at the edges.

The change of sub-period matters less for what it promises than for what it asks you to prepare. Beside how the emphasis shifts, the deciding evidence is Moon Antardasha and Mars Antardasha. An honest audit of current skills is the right starting point here. Early wins in a narrow area make broader responsibility easier to claim.

07

Career Strategy

A sensible approach follows from the reading rather than from any single indication. Beside how the six fields compare, it rests chiefly on How the emphasis shifts and Administration. Prefer teams where expectations are revisited openly rather than assumed. Each change of role is best timed after a piece of work is complete.

Next steps

1. Within the next month, list three specific roles in administration and note, for each, the skills you already have and the one you would need first.
2. Before committing further, speak with two people already working in finance and management about their ordinary week and what they wish they had known.
3. Over the coming quarter, take one short project or course connected to business and entrepreneurship and judge it by what you finished, not by how it felt.

Method

• Calculations: Swiss Ephemeris (Moshier), Lahiri ayanamsa, mean node, whole-sign houses. Vimshottari dates are the engine's; nothing in this PDF is recalculated.

• Readings: every conclusion comes from the same evidence engine as your Kundli, which weighs evidence as strong, moderate or weak and gives qualitative readings, never percentages.

• Fields: each is judged on its own significators and houses, using house rules that apply alike to every house; ruling the 10th is a link to career, not support in itself.

• D10: the Dasamsa needs an exact birth time; how far its rising sign holds is stated on page 1.

• Written paragraphs cite these calculated facts and are checked against the chart before the report is delivered.

Glossary

D10 the Dasamsa, a divisional chart traditionally read for profession.

Mahadasha a major planetary period in the Vimshottari system.

Antardasha a sub-period within a Mahadasha.

Sarvashtakavarga a traditional tally of support for each house (about 28 points is average).
