LIMITS OF THIS READING

The D10 depends on an accurate birth time: its rising sign stays Pisces for a birth up to 10 minutes earlier and 1 minute later. Dates are calculated periods, not promised events; the report describes tendencies, not guarantees.

01

Executive Career Summary

This report opens with its conclusions, and the overall reading here is the one your Kundli shows for career. Beside overall career reading, the factors carrying most weight are Mercury in the 7th and 10th lord dignity (Mercury). A useful test is a short assignment with a clear deliverable, judged on what it actually produced. Watch how quickly feedback reaches you; slow feedback is where this indication tends to cost the most.

Among the six fields assessed, the leading group and the trailing group are separated by evidence that only one side draws on. Beside how the six fields compare, here What the D10 adds and Employment or independent work matter most. Small, reversible commitments let you see whether the reading matches your own experience. Keep notes on which duties leave you energised and which drain you, since that record outlasts any forecast.

The present periods set the tone for the next few years, and the coming change of sub-period moves the emphasis. Beside how the emphasis shifts, behind this sit Venus Mahadasha and Mercury Antardasha. Responsibility offered gradually tends to suit this pattern better than a sudden leap in scope. Colleagues who review work closely can turn this into an advantage rather than a pressure.

02

Professional Identity

Your professional make-up is described by how the rising sign, the house of career and their rulers bear on one another. Beside mercury's birth-chart lordship, the deciding evidence is 1st lord placement (Jupiter) and 1st lord dignity (Jupiter). Where a choice is close, the steadier option usually fits this evidence better. It helps to separate what the role demands daily from what it promises on paper.

The question of a salaried role against independent work is settled by the houses of service and of trade. Beside employment or independent work, it rests chiefly on 6th lord dignity (Venus) and Jupiter in the 6th. Measured targets, agreed in advance, make the strengths described here visible to others. The weaker side of this reading is best handled by preparation, not avoidance.

EMPLOYMENT OR INDEPENDENT WORK: THE EVIDENCE

Your 6th house of service and employment reads as mixed (for it, Jupiter in the 6th (moderate); against it, 6th lord dignity (Venus) (moderate)). Your 7th house of trade and partnership reads as supportive (for it, Mercury in the 7th (strong), 7th lord placement (Mercury) (moderate) and 7th lord dignity (Mercury) (moderate) and 1 more; against it, 7th house Sarvashtakavarga (strong)). So the chart favours independent work or business over salaried employment. Your 10th lord, Mercury, sits in the 7th house, tying career to partnership and trade.

03

Strengths and Challenges

Strengths

Mercury recurs as a strength: 10th lord dignity (Mercury), Bhadra Yoga, 10th lord placement (Mercury), 7th lord placement (Mercury), 7th lord dignity (Mercury), Mercury in the 7th and Mercury as significator all point the same way, and it is your 10th lord.

Mercury in the 7th — strong
Mercury occupies the 7th house (Gemini).

10th lord dignity (Mercury) — moderate
Mercury, lord of the 10th house, is own sign in Gemini.

Jupiter in the 6th — moderate
Jupiter occupies the 6th house (Taurus).

7th lord placement (Mercury) — moderate
The 7th house (Gemini) is ruled by Mercury, which sits in the 7th house itself.

7th lord dignity (Mercury) — moderate
Mercury, lord of the 7th house, is own sign in Gemini.

Challenges

Mars recurs as a challenge: Mars's aspect on the 1st, Mars's aspect on the 2nd, 5th lord dignity (Mars), Mars in the 7th and Mars as significator all point the same way.

7th house Sarvashtakavarga — strong
The 7th house (Gemini) has 18 bindus — well below average.

1st lord placement (Jupiter) — moderate
Jupiter, lord of the 1st house (Sagittarius), sits in the 6th house.

6th lord dignity (Venus) — moderate
Venus, lord of the 6th house, is in a friend's sign but combust (too close to the Sun) in Gemini.

Sun in the 7th — moderate
Sun occupies the 7th house (Gemini).

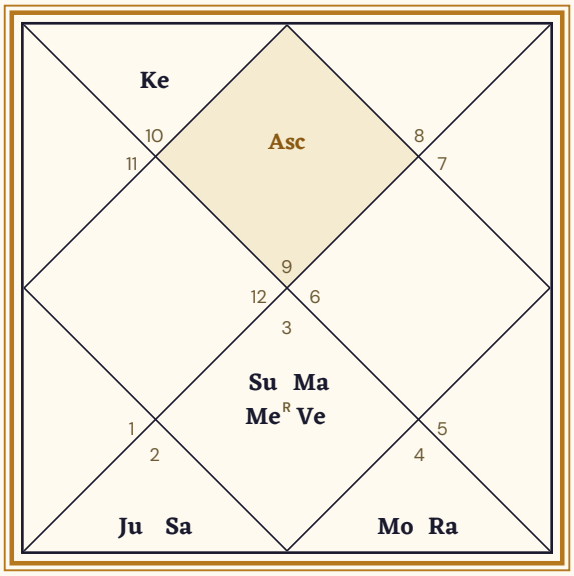

Mars in the 7th — moderate
Mars occupies the 7th house (Gemini).

The professional strengths come first, from the firmest to the lightest. Beside recurring strength, look first at Mercury in the 7th and 10th lord dignity (Mercury). Expect the benefit to build over years; short trials show direction, not the final result. A mentor with experience in this area can shorten the learning considerably.

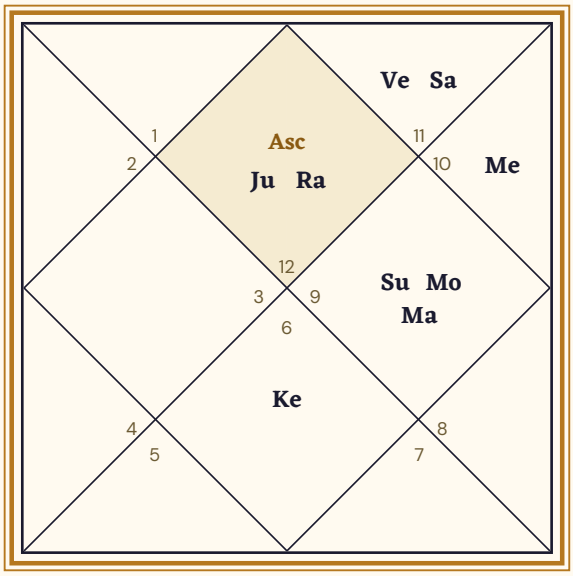

The challenges recur rather than appearing once, which is why they deserve planning. Beside recurring challenge, the factors carrying most weight are 7th house Sarvashtakavarga and 1st lord placement (Jupiter). Treat early friction as information about fit rather than as a verdict on ability. Organisations with documented processes tend to reward the habits this suggests.

D1 and D10 Analysis

Rasi · D1 (birth chart)

Dasamsa · D10 (profession)

North Indian charts; house 1 is the shaded top diamond; numbers are signs (1 = Aries). R marks a retrograde planet.

PLANET	ROLE	BIRTH CHART (D1)	DASAMSA (D10)	D10 BEARING
Mercury	your 10th lord	Gemini, 7th; own sign	Capricorn, 11th; neutral	Unresolved
Jupiter	your Lagna lord, the D10 Lagna lord, the D10's 10th lord	Taurus, 6th; enemy's	Pisces, 1st; own sign	Contradicts
Sun	a natural significator of career	Gemini, 7th; neutral	Sagittarius, 10th; friendly	Reinforces
Saturn	a natural significator of career	Taurus, 6th; friendly	Aquarius, 12th; own sign	Qualifies

OVERALL: THE D10 QUALIFIES THE BIRTH-CHART READING

Against the overall career reading (strong), the D10 evidence for the career planets partly supports and partly strains it. Supporting in the D10: Jupiter's D10 dignity, Jupiter's D10 house, Sun's D10 house and Saturn's D10 dignity. Straining in the D10: Saturn's D10 house.

This planet is read in both of its charts in turn. Beside mercury in d1 and d10, here Mercury as significator matter most. Pairing this strength with a partner who covers its gaps is often more practical than fixing every gap alone. Your own results over the next year are the best check on how much weight to give this.

This planet is read in both of its charts in turn. Beside jupiter in d1 and d10, behind this sit Jupiter as significator and Jupiter's D10 dignity. Choosing where to specialise matters more here than how fast you move. Visible, finished work tends to count for more under this pattern than promises of future output.

This planet is read in both of its charts in turn. Beside sun in d1 and d10, the deciding evidence is Sun's D10 house. A written plan with review dates keeps this from drifting into habit. Seasonal or project-based work is a low-cost way to sample this before committing.

The Dasamsa is the divisional chart read for profession; here it is set against the birth chart as a whole. Beside what the d10 adds, it rests chiefly on Mercury in D1 and D10 and Jupiter in D1 and D10. Credit may arrive later than effort under this pattern, so budget patience into plans. Clear ownership of a defined area tends to bring out the better side of this reading.

05

Professional Field Comparison

Each field is judged on its own significators and houses by the same engine as your Kundli; fields are ranked by that reading. Readings are qualitative, never percentages.

What separates the fields

Government and institutional roles and Advisory and consulting roles share the same reading (strong). Only Government and institutional roles draws on support from 10th lord dignity (Mercury) and 10th lord placement (Mercury) (+1 weaker); and strain from 10th lord Dig Bala (Mercury). Only Advisory and consulting roles draws on support from 5th house Sarvashtakavarga and 5th lord placement (Mars) (+1 weaker); and strain from 5th lord dignity (Mars).

Advisory and consulting roles and Administration share the same reading (strong). Only Advisory and consulting roles draws on support from 5th house Sarvashtakavarga and Jupiter's D10 dignity (+4 weaker); and strain from 5th lord dignity (Mars) and Jupiter as significator. Only Administration draws on support from 10th lord dignity (Mercury) and Saturn's D10 dignity (+3 weaker); and strain from 6th lord dignity (Venus) and 10th lord Dig Bala (Mercury) (+1 weaker).

Administration (strong) ranks above Communication and public-facing professions (mixed). Only Administration draws on support from 10th lord dignity (Mercury) and Saturn's D10 dignity (+3 weaker); and strain from 6th lord dignity (Venus) and 10th lord Dig Bala (Mercury) (+1 weaker). Only Communication and public-facing professions draws on support from 7th lord placement (Mercury) and 7th lord dignity (Mercury) (+5 weaker); and strain from 7th house Sarvashtakavarga and 3rd lord placement (Saturn) (+3 weaker).

Communication and public-facing professions and Business and entrepreneurship share the same reading (mixed). Only Communication and public-facing professions draws on support from Moon as significator and Moon's D10 house; and strain from Venus as significator and Venus's D10 house. Only Business and entrepreneurship draws on support from 11th lord placement (Venus) and Mars's D10 house; and strain from 11th lord dignity (Venus) and Mars as significator.

Business and entrepreneurship and Finance and management share the same reading (mixed). Only Business and entrepreneurship draws on support from 7th lord placement (Mercury) and 7th lord dignity (Mercury) (+3 weaker); and strain from 7th house Sarvashtakavarga and 3rd lord placement (Saturn) (+2 weaker). Only Finance and management draws on support from Jupiter's D10 dignity and 2nd lord dignity (Saturn) (+2 weaker); and strain from 2nd lord placement (Saturn) and Jupiter as significator (+2 weaker).

Government and institutional roles (strong reading)

Government and institutional roles is judged on its own significators and houses. Beside government and institutional roles, look first at 10th lord dignity (Mercury) and Jupiter's D10 dignity. When two options look equal, the one with clearer accountability is usually the better fit here. The pressure described here eases when expectations are explicit from the start.

Advisory and consulting roles (strong reading)

Advisory and consulting roles is judged on its own significators and houses. Beside advisory and consulting roles, the factors carrying most weight are 5th house Sarvashtakavarga and 5th lord dignity (Mars). Short written reviews after each project make the pattern easier to see over time. Negotiating scope before accepting a role protects against the strain noted here.

Administration (strong reading)

Administration is judged on its own significators and houses. Beside administration, here 10th lord dignity (Mercury) and 6th lord dignity (Venus) matter most. Steady skill-building in one domain compounds faster than scattered effort across several. Ask for responsibilities that can be measured within months, not only over years.

Communication and public-facing professions (mixed reading)

Communication and public-facing professions is judged on its own significators and houses. Beside communication and public-facing professions, behind this sit 7th house Sarvashtakavarga and 3rd lord placement (Saturn). Your network of past colleagues is a practical route into work of this kind. A trial period, formally agreed, suits the cautious side of this reading.

Business and entrepreneurship (mixed reading)

Business and entrepreneurship is judged on its own significators and houses. Beside business and entrepreneurship, the deciding evidence is 7th house Sarvashtakavarga and 7th lord placement (Mercury). Technical depth tends to protect you where the evidence is weaker. Leadership of a small unit is a sensible first step before anything larger.

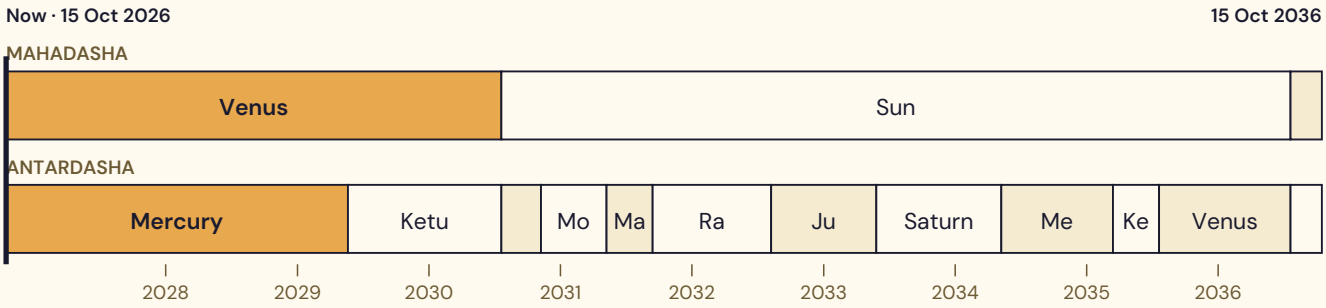

Finance and management (mixed reading)

Finance and management is judged on its own significators and houses. Beside finance and management, it rests chiefly on 2nd lord placement (Saturn) and 11th lord dignity (Venus). Budget time for formal training; this evidence favours depth gained slowly. Regular conversations with someone already doing the work will test the fit cheaply.

Drawing the six assessments together shows where the separations are real and where they are slight. Beside how the six fields compare, look first at Government and institutional roles against Advisory and consulting roles and Advisory and consulting roles against Administration. Look for employers whose promotion criteria are written down and applied consistently. Documenting decisions and their outcomes builds the reputation this reading points to.

Career Timing

RUNNING MAHADASHA

Venus

21 Jul 2010 – 21 Jul 2030

tone neutral

Venus rules your 6th and 11th houses and sits in your 7th house. It has no direct link to your 10th house. Fields it bears on (as significator: finance and communication; as 6th lord: administration; as 11th lord: business).

RUNNING ANTARDASHA

Mercury in Venus

21 Jul 2026 – 21 May 2029

tone supportive

Mercury rules your 7th and 10th houses and sits in your 7th house. For career: Mercury rules the 10th house. Fields it bears on (as significator: business, advisory, finance and communication; as 10th lord: administration and government).

NEXT ANTARDASHA

Ketu in Venus

21 May 2029 – 21 Jul 2030

tone neutral

Ketu sits in your 2nd house. It has no direct link to your 10th house. Fields it bears on (from the 2nd: finance). Owning no sign, it works through Saturn, the lord of the sign it occupies, and so also bears on administration, business, finance and communication.

On 21 May 2029 the sub-period passes from Mercury (tone supportive) to Ketu (tone neutral). Fields it no longer emphasises: government and institutional roles and advisory and consulting roles.

This period is read through the condition of its lord. Beside venus mahadasha, the factors carrying most weight are Venus's D10 house. Changes made between projects carry less risk than changes made in the middle of one. Choose roles whose daily rhythm matches yours; the evidence speaks to rhythm as much as to field.

This period is read through the condition of its lord. Beside mercury antardasha, here Mercury's capacity as a period lord and Mercury's period links matter most. A second opinion from a trusted colleague is worth seeking before any large move. Concentrated effort over a defined season suits this better than constant switching.

This period is read through the condition of its lord. Beside ketu antardasha, behind this sit Ketu's D10 house. Where recognition is slow, a portfolio of finished work speaks on your behalf. Keep one dependable commitment steady while experimenting at the edges.

The change of sub-period matters less for what it promises than for what it asks you to prepare. Beside how the emphasis shifts, the deciding evidence is Mercury Antardasha and Ketu Antardasha. An honest audit of current skills is the right starting point here. Early wins in a narrow area make broader responsibility easier to claim.

07

Career Strategy

A sensible approach follows from the reading rather than from any single indication. Beside how the six fields compare, it rests chiefly on How the emphasis shifts and Administration. Prefer teams where expectations are revisited openly rather than assumed. Each change of role is best timed after a piece of work is complete.

Next steps

1. Within the next month, list three specific roles in administration and note, for each, the skills you already have and the one you would need first.
2. Before committing further, speak with two people already working in government and institutional roles about their ordinary week and what they wish they had known.
3. Over the coming quarter, take one short project or course connected to advisory and consulting roles and judge it by what you finished, not by how it felt.

Method

- Calculations: Swiss Ephemeris (Moshier), Lahiri ayanamsa, mean node, whole-sign houses. Vimshottari dates are the engine's; nothing in this PDF is recalculated.
- Readings: every conclusion comes from the same evidence engine as your Kundli, which weighs evidence as strong, moderate or weak and gives qualitative readings, never percentages.
- Fields: each is judged on its own significators and houses, using house rules that apply alike to every house; ruling the 10th is a link to career, not support in itself.
- D10: the Dasamsa needs an exact birth time; how far its rising sign holds is stated on page 1.
- Written paragraphs cite these calculated facts and are checked against the chart before the report is delivered.

Glossary

D10 the Dasamsa, a divisional chart traditionally read for profession.

Mahadasha a major planetary period in the Vimshottari system.

Antardasha a sub-period within a Mahadasha.

Sarvashtakavarga a traditional tally of support for each house (about 28 points is average).
